

Have your say on the scale and location of new development sites in Milton Abbas.

Your voice, spoken through the right channels, can be heard!

BACKGROUND

A planning agent attended a Neighbourhood Development Plan Working Group (NDPWG) meeting recently and presented proposals for development of 60-100 homes at Site 2. We were surprised at the scale of the proposal and want the NDPWG to represent the community's views. **To do this well we need your help.** Please answer this short questionnaire to help influence the local positive change for our parish.

Given both the central and local government targets for new houses, there will have to be growth in Milton Abbas. It would be ideal to have a Neighbourhood Plan in place as soon as possible. The NDPWG can work hard on your behalf to try to ensure we have a local say on how we wish Milton Abbas to grow. Without the plan (including site allocation), only the national policies will apply. **Your views are important and they will be listened to.**

DIARY DATES
